PROFESSIONAL SUMMARY

Detail-oriented DevOps engineer with comprehensive expertise in end-to-end DevOps tools and processes. Seeking an entry-level opportunity to leverage my skills in continuous integration, automation, and cloud infrastructure to drive efficient and scalable solutions for innovative tech environments.

TECHNICAL SKILLS:

- Operating System : Linux, Windows, Ubuntu
- Versioning Tools : Git
- Continuous Integration : CI/CD (Jenkins)
- Build Tool : Maven
- Containerization Tool : Docker, Docker Hub
- Container Orchestration : Kubernetes
- IAC : Terraform
- Configuration Automation Tool : Ansible
- Cloud Services : AWS
- Application Server : Apache ,Tomcat , Nginx
- Code Quality : SonarQube, Nexus
- Continuous Monitoring : Prometheus & Grafana
- Programming languages : Python
- Data base : SQL

PROJECTS:

3-TIER ARCHITECTURE :

DESCRIPTION: Designed and implemented a robust, high-availability three-tier architecture for hosting scalable web applications on AWS
. • **Web Tier (Frontend):** Configured Nginx on EC2 instances to deploy a React.js application, optimizing traffic management via an external load balancer.
• **Application Tier (Backend):** Deployed a Node.js application on EC2 instances, ensuring seamless integration with backend services and utilizing an internal load balancer for distribution.

• **Database Tier:** Set up Aurora MySQL Multi-AZ for high availability, providing fault tolerant, distributed database services across AWS Availability Zones.
TOOLS: Nginx, EC2, ELB, Route 53, ACM, Auto Scaling, CloudWatch.

INTEGRATING AN APPLICATION WITH SONARQUBE, NEXUS, AND TOMCAT USING JENKINS

DESCRIPTION:

1. **Jenkins Setup:** Ensure Jenkins is installed and running.
2. **Plugins Required:** Install the following plugins in Jenkins:
   - SonarQube Scanner Plugin
   - Nexus Artifact Uploader Plugin
   - Deploy to Container Plugin
3. **SonarQube Server:** Running and configured with the necessary permissions.
4. **Nexus Repository:** Configured to store build artifacts.
5. **Tomcat Server:** Running with management credentials configured.
6. **Git Repository:** Codebase stored in a Git repository.

EDUCATION QUALIFICATIONS:

MASTER OF COMPUTER APPLICATIONS(MCA)
KAKATIYA UNIVERSITY , WARANGAL
CGPA: 7.5

BACHELOR OF SCIENCE(BSC)(MPCS)
PINGLE DEGREE COLLEGE , HANAMKONDA
CGPA: (7.10)

INTERMEDIATE(MPC)
GOVT JUNIOR COLLEGE , GOVINDARAOPET
CGPA: (8.3)

ACHIEVEMENTS AND CERTIFICATIONS:

Certifications:

Certified in aws and devops from vcube software solutions.
Certified in python from besant technologies.
